William J. Vahey
(11/21/31 - 10/10/98)

Bill first came to NH in 1954 after marrying Alma Jones. They purchased their North Rd farm in 1956 and were here to stay after Bill retired in 1972 after 22 years in the Air Force.

Bill was born in NY but was raised in Ireland, a place he called his "second" home. He returned there to visit as often as he could.

Bill was best known as a Town of Brentwood Police Officer and Chief but he served on many other town boards.

Not one to "sit around" after Air Force retirement Bill went to work for the Rockingham County House of Corrections and retired as Chief of Security in 1993 after serving 22 years.

Longtime Brentwood residents may remember Bill serving on the following boards:

Charter member of Brentwood Recreation
Member of Brentwood's first Budget Committee
School Moderator
Town Moderator
Selectman
Lifetime member of Rockingham County Law Enforcement Assoc.
Past President of Rockingham County Law Enforcement Assoc.
Lifetime member and Past Commander of VFW, Kingston Post 1088
Member of First Baptist Church of Brentwood where he held the positions of Trustee, Deacon and Moderator.

The Vahey's have two daughters, Grace and Maureen, and two grandsons, Brenden and Billy, who were grampa's "shadows".

He will be missed.

Brentwood Zoning Ballot

Are you in favor of adoption of the following amendment as proposed by the planning board for the Town of Brentwood Zoning Ordinance as follows:?

The Brentwood Planning Board proposes to amend Article VII, Section 7.3, Aquifer Protection District by adding several sections that enable the Planning Board to better regulate the extracton of water resources from the Town. The following changes are proposed:

Add to section 7.3.A as final paragraphs:

“ -- to acknowledge that groundwater is a natural resource which must not be wasted or contaminated and that groundwater resources are necessary to promote health and general welfare and economic development of land;

-- to protect animal and plant habitats and wetland ecosystems.”

Add to section 7.3.C.b., after 2):

“3) Water development projects that withdraw more than 20,000 gallons per day from a particular site or property.”

Revise first sentence second paragraph of Section 7.3.C.b to read:

“For residential subdivisions of ten (10) lots or less, and for non-residential projects with proposed water usage of less than 20,000 gallons per day from a particular site or property, the Planning Board shall determine, on a case-by-case basis, the need for a hydrogeologic study.”

Revise second sentence third paragraph of Section 7.3.C.b to read:

“This study shall be sufficiently detailed to demonstrate to the satisfaction of the Planning Board that the development will not engender adverse short or long-term impacts to water quality and availability for approvable land uses on land drawing upon the same groundwater source: upon adjacent or nearby water wells; upon animal and plant habitat; and, upon wetland ecosystems.”

Revise 1) after third paragraph of Section 7.3.C.b to read:

“1) Soil borings (to evaluate soil stratigraphy) and multi-level monitoring wells (to evaluate groundwater flow directions);

Add at Section 7.3.C.b, after 5):

“6) Water budget analysis for watershed in which development is located that accounts for natural and anthropogenic recharge and discharge and storage capacity.”

Add at Section 7.3.C.B, after 6):

“7) Additional analysis/testing required by the Planning Board on a case-by-case basis.”

Add at Section 7.3.C.g (ii)

Insert the words “either the short or” at the end of the first line so that the revision reads:

“ii. The proposed use will not cause a significant reduction in *either the short or* the long-term volume of water contained in the aquifer or in the storage capacity of the aquifer;”

Revise v. of Section 7.3.C.g to read:

“v. A hydrogeologic study shall be submitted as required in Section 7.3.C.b of this Article.”

INDEPENDENT AUDITOR'S REPORT

To the Members of the
Board of Selectmen
Town of Brentwood
Brentwood, New Hampshire

We have audited the accompanying general purpose financial statements of the Town of Brentwood as of and for the year ended December 31, 1997 as listed in the table of contents. These general purpose financial statements are the responsibility of the Town's management. Our responsibility is to express an opinion on these general purpose financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

The general purpose financial statements referred to above do not include the general fixed assets account group which should be included in order to conform with generally accepted accounting principles. As is the case with most municipal entities in the State of New Hampshire, the Town of Brentwood has not maintained historical cost records of its fixed assets. The amount that should be recorded in the general fixed assets account group is not known.

In our opinion, except for the effect on the financial statements of the omission described in the preceding paragraph, the general purpose financial statements referred to above present fairly, in all material respects, the financial position of the Town of Brentwood, as of December 31, 1997, and the results of its operations and the cash flows of its nonexpendable trust funds for the year then ended in conformity with generally accepted accounting principles.

In accordance with *Government Auditing Standards*, we have also issued our report dated April 22, 1998 on our consideration of the Town of Brentwood's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grants.

Town of Brentwood
Independent Auditor's Report

Our audit was made for the purpose of forming an opinion on the general purpose financial statements of the Town of Brentwood taken as a whole. The combining and individual fund financial statements listed as schedules in the table of contents are presented for purposes of additional analysis and are not a required part of the general purpose financial statements of the Town of Brentwood. The accompanying Single Audit schedules are presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and are not a required part of the general purpose financial statements. All such information has been subjected to the auditing procedures applied in the audit of the general purpose financial statements and, in our opinion, is fairly presented in all material respects in relation to the general purpose financial statements taken as a whole.

**BRENTWOOD PLANNING BOARD
REPORT FOR 1998**

Honorable Board of Selectmen
Citizens of Brentwood

I present to you the following list of applications processed by your Planning Board for the year 1998. It has been a busy year.

The results of site plan approvals and three subdivisions has been the addition of 87 possible new housing units and an added \$2,472,900.00 to our commercial tax base.

The Board and Rockingham Planning Commission began the process to develop the Capital Improvements Plan you authorized at last years annual Town Meeting. This plan must be adopted, by law, before the Town can adopt impact fees, or any growth control ordinance. I am confident that, with the complete cooperation of all Town Departments and Boards, this will be accomplished by June 1, 1999. This must be done in order to address the financial burden that rapid development brings to a community.

In addition to processing applications and working on the Capital Improvements Plan the board has spent a great deal of time clarifying and amending, for the public benefit, subdivision, site plan and road construction standards.

On your behalf, I would like to take this opportunity to say "Thank You" to the members of your Planning Board and Board of Adjustment. They have consistently tried to listen to all and apply and interpret the Land Use Regulations of the Town of Brentwood in a manner that is fair and according to the law. Their job is not always easy or popular. Their diverse views have served this community well.

Respectfully,

A handwritten signature in cursive script that reads "Jane L. Byrne".

I would like to thank the Board of Selectmen, the citizens of Brentwood, the Ladies Auxiliary of the Brentwood Fire Department and the Officers of the Departments for their support and cooperation this year.

Respectfully submitted,

Wayne M. Robinson,
Chief of Police

BRENTWOOD FIRE & RESCUE DEPARTMENT REPORT

Board of Selectman
Citizens of Brentwood

I submit to you the following list of activities for the year 1998.

The department answered 277 calls which breaks down as follows.

109 Ambulance calls

146 Fire calls

22 Service calls

8 calls unable to respond due to lack of personnel. Mutual aid assistance from surrounding towns was required , causing a delay in response.

The Fire & Rescue Department is in a crisis situation for daytime coverage.

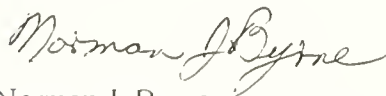

Your Fire & Rescue Department is desperately in need of new members. The Fire and Rescue meet every 2nd and 4th Monday night for training. Please contact myself or any member of the department if you feel that you can help. Training for all new members will be provided.

The department is awaiting the arrival of a used and completely rebuilt tanker -pumper . We hope this piece of apparatus will give the department many years of reliable service.

I wish to Thank the Officers and Members of the Department, the Fire Wards, the Ladies Auxiliary, other Departments, and the Citizens of Brentwood for their support during the past year.

Your department is always ready to serve you in any way possible.

Respectfully,

Norman J. Byrne
Chief of the Brentwood Fire & Rescue Department

1998 Report

- The key objective for 1998, to construct and have operational a new garage building at the Middle Road site of the old highway shed, was achieved.
- Construction of a new salt shed, originally planned for 1999, was also completed, placing the entire project well ahead of schedule.
- The facility is fully operational now. In the Spring paving will be completed, a lean-to will be added to the side of the new salt shed to provide protection for the sanders plus some outside storage, and landscaping will be started at the Middle Road side of the property. The old salt shed will be removed as soon as possible, and a small holding pond will be dug in the general area where it now stands.
- Cost: most of the funds in the Capital Reserve Fund for this project, \$111,554, have been expended. However, since it was expected that new funds would have to be appropriated for construction of the salt shed, the total cost is substantially less than anticipated. The amount saved, well over \$60,000, results from donated labor and equipment usage, most importantly from Robert Sanborn, and from the contribution of materials from various sources. The Brentwood tradition of volunteerism proudly continues. Space does not permit us to acknowledge and give thanks to these volunteers and contributors, but the *Brentwood Newsletter*, in its January '99 issue, tells part of the story.
- The committee's focus has now turned to the space needs of the Town Office. Using a portion of the funds provided by the 1998 Warrant Article for the purpose, Mr. David Roberts, principal of Shelter Enterprises, a Brentwood business, has been engaged to provide architectural design services for a two-level 40' X 80' addition to the existing Town Office, effectively tripling its square footage. These services will include interviewing key personnel to determine needs, helping to coordinate those needs into a workable building plan, investigating various building requirements, and creating a conceptual plan for consideration. Final plans will be prepared upon acceptance of the conceptual plan.
- A Warrant Article to provide funds for the continuation of this work plus creating a Reserve Fund for construction, will be submitted to Brentwood voters for approval in March.

Mary E. Bartlett Library

The trustees and staff of the library would once again like to thank the people of Brentwood for their support. Usage of the library continues to grow. 9,135 visits were made to the library in 1998 and 26,191 items were borrowed, an increase of 17 percent over 1997. Through the state interlibrary loan system 237 items were obtained for our patrons and 425 items were loaned to other libraries. Children's programs, including story hours and the summer reading program totaled 85. Attendance totaled 1874 children, a 21 percent increase over 1997.

The Friends of the Library continue their vital support to the library. The Christmas Craft Fair was their best ever. Once again they helped us to increase and improve our excellent children's book collection. They also provided new carts, shelving, and tables and chairs for the children's section of the library. In addition they gave two upholstered chairs and a matching loveseat for the adult section of the library. This year they have added four passes to the Boston Aquarium in addition to their usual gift of four passes to the Portsmouth Children's Museum. All Brentwood residents may borrow these passes from the library.

Money from the Randall Hatch fund was used to purchase the total collection of the Great Stone Face Award Books. These are books that have been voted for by the schoolchildren of New Hampshire.

Money from the Harriet Gove Fund was used to add to our history collection and to purchase bags of baby books. Each bag contains a small collection of board-like books for the very young children. Parents may sign these bags out as a unit.

Also, a big thanks to Dianthe Wade for the gift of the statuette of a fairy reading. Please stop to admire it when you visit the library. It sits on the card files.

Our new computer is installed and available for use. We have ordered cable access to the internet, and are awaiting its installation.

No report can be complete without giving a sincerely warm thank you to The Friends of the Mary E. Bartlett Library, the Brentwood Gardeners, Grace Wood, Rose Zacher, JoAnn Cormier, Bea Matheson, all of those people who have so generously donated books, the story hour moms, and all of the other wonderful people who have given of their time and talents this past year.

You are hereby notified to meet at the Swasey Elementary School in said District on SATURDAY, THE SIXTH DAY OF MARCH, 1999 AT 9:00 AM to act upon the following subjects:

1. To see if the District will vote to raise and appropriate the sum of ONE MILLION EIGHT HUNDRED FIFTY SIX THOUSAND, FOUR HUNDRED SIXTY EIGHT DOLLARS (\$1,856,468.00) for the support of the schools, for the payment of salaries for the school district officials and agents, and for the payment for the statutory obligations of the District. (The School Board recommends this appropriation. The Budget Committee recommends this appropriation.)
2. To see if the District will vote to enter into a collective bargaining agreement with the Brentwood Teachers Association (the union representing teachers in the Brentwood School District) covering the three (3) year period from September 1, 1999 to August 31, 2002 and approve the cost items included therein containing, in summary: continuation of existing non-salary benefits with the following changes: health insurance coverage changes from Blue Cross Comp 200 Plan with managed care to SchoolCare, with the teacher paying a portion of the premium for two person and family plans; an additional dental insurance benefit so that the district pays 70% of the two person Option One A Delta Dental Plan; and \$6,000.00 budgeted for professional leave of all teachers; and the following salary increase schedule: first year – 6% increase over 1998-1999 rates; second year – 3% increase over the 1999-2000 rates; third year – 3% increase over the 2000-2001 rates.

The approximate increase in the cost of teacher salaries because of this agreement and step increases for each of the three (3) years (subject to change resulting from changes in the number of and in the educational degrees and years of experience of teachers employed) over the preceding year will be:

\$74,846.00 in the first year
\$48,218.00 in the second year
\$43,033.00 in the third year

And, further, to raise and appropriate the sum of SEVENTY FOUR THOUSAND, EIGHT HUNDRED FORTY SIX DOLLARS (\$74,846.00) for the 1999-2000 year, such sum representing the net additional costs attributable to the increase in salaries and salary related benefits (less estimated insurance premium savings) over those appropriated under Article 1 which is the same as 1998. (The School Board recommends this appropriation. The Budget Committee does not recommend this appropriation.)

3. To see if the District will vote to raise and appropriate the sum of FIVE THOUSAND DOLLARS (\$5,000) to reduce the general fund deficit pursuant to RSA 189:28-a which was incurred during the July 1, 1998 through June 30, 1999 fiscal year to cover higher than anticipated costs for both regular and special education. (The School Board recommends this appropriation. The Budget Committee does not recommend this appropriation.)
4. To see if the District will vote to contract for the necessary services including, but not limited to surveys and studies related to, developing plans for an addition to the Swasey School on Middle Road, and to raise and appropriate the sum of FIVE THOUSAND DOLLARS (\$5,000) for this purpose. (The School Board recommends this appropriation. The Budget Committee recommends this appropriation.)

5. To see if the District will vote to establish a Capital Reserve Fund under the provisions of RSA 35:1 for the purpose of future building expansion and to raise and appropriate the sum of FIFTY THOUSAND DOLLARS (\$50,000.00) to be placed in this fund. (The School Board recommends this appropriation. The Budget Committee does not recommend this appropriation.)

6. To see if the Brentwood School District will vote to raise and appropriate the sum of FIVE THOUSAND DOLLARS (\$5,000) for the purpose of repairing and maintaining the computer network system. (The School Board recommends this appropriation. The Budget Committee does not recommend this appropriation.)

7. To hear reports of agents, auditors, and committees or officers heretofore chosen and to pass any vote relating thereto.

8. To transact any other business that may come before this meeting.

BRENTWOOD SCHOOL DISTRICT MEETING
MARCH 8, 1998
9:00 A.M.

Moderator: Jim Shuchman

The meeting was held at Swasey Central School. Moderator Shuchman opened the meeting at 9:05 a.m.

Moderator Shuchman reviewed the ground rules of the School District Meeting.

An announcement was made that two sixth graders at Swasey Central School, John Goodwin and Spenser Hamer, had been chosen as student ambassadors to Australia by the People to People Program this year. Refreshment and raffle sales were being held in the lobby during the meeting and the public was invited to lend support to this fundraiser.

The School Warrant was read by Moderator Shuchman as printed on page eighty-four of the Annual Town and School District Report, Brentwood, NH, year ending December 31, 1997. It was then moved by Ike Cross, seconded by Wayne St. Hillaire, and carried by voice vote to allow out-of-district residents to speak.

ARTICLE #1

To see if the School District will vote to raise and appropriate the sum of ONE MILLION, SIX HUNDRED NINETY TWO THOUSAND, SIXTY ONE DOLLARS (\$1,692,061.00) for the support of the schools, for the payment of the salaries for the school district officials and agents, and for the payment for the statutory obligations of the district. It was moved by Jim Genter to accept Warrant Article #1. Dave LaPointe reviewed the Brentwood School District Budget Changes from 97/98 to 98/99 as set forth in the eight page supplement prepared by the School Board (see attached). He began by discussing the Regular Education and Reading Education budgets which included an increase of \$1,300.00 for textbooks and a new reading series recommended by Mr. Nick Hardy, Principal, and the Reading Specialist. Jim Johnson questioned the number of students in the Coop compared to the number of students at Swasey School. Dave LaPointe answered that 254 students attended Swasey with 40 going to the Coop next year. He said Brentwood has 186 students in the Coop. Next Dave LaPointe explained that items on lines 440, 531, 615, and 741 under heading Computer were not new items but rather had been moved from other areas in the budget. He also mentioned that math, science, music, and P.E. equipment had not been updated in a long time. Jim Johnson asked how many computers there were at Swasey. Ron Thompson reported thirty-five PC's and a server. Dave LaPointe also noted that Special Ed. and Aid costs were down by \$20,310. Dave LaPointe continued review of major changes in this year's budget. Jim Johnson requested an explanation of the discrepancy in teacher staff course reimbursement and Nick Hardy, Principal, stated that more than five staff are involved in a graduate program. Regarding pupil transportation, the school board voted to discontinue use of cars for student field trips. Eric Wallace asked if there was a contingency budget in case this one were voted down. School Board said no. Conrad Marcotte questioned a

\$300,000 budget increase reported in the Brentwood Newsletter and Ike Cross explained that this was total school cost including the Coop. Bill Eames asked for an explanation of the health insurance buy out program and Barbara Lobdell said that full time teachers can opt for other plans. Jim Johnson asked to what extent computers were used in the classroom. Nick Hardy spoke to this. He explained that full classes used the computer lab now and that the logistics and curricula regarding computers down the road would move from students learning to use computers to one of students using computers to learn. In answer to Jim Johnson's question as to why we need a library if there are computers . Mr. Hardy said printed materials can't be replaced by computers. He also went on to assure everyone that although computer literacy was not common in schools 30-40 years ago it is critical that we equip kids with the technology skills they will need to keep up in the middle school. This is how it is today. Robin Woodward had questions regarding number of computers and the ongoing cost. Ron Thompson discussed the terms of the computer lease/purchase arrangement and that with 2% of our total budget being spent on computers, we are well below the 10-12% that many school districts are spending. Jim Genter also explained that we would probably purchase several new computers each year. M. Stevens moved to close discussion on Warrant Article #1. It was seconded and carried by voice vote. Warrant Article #1 carried by voice vote.

ARTICLE #2

To see if the School District will vote to support the After School Enrichment Program for Swasey School students and to raise and appropriate the sum of FIVE THOUSAND DOLLARS(\$5,000.00) for this purpose. MSP to accept Article #2. Ron Thompson spoke on behalf of Article #2 saying a survey had been done and parents are willing to pay. Nick Hardy addressed the many benefits of the after school program and Ike Cross asked why the Budget Committee had not appropriated this. Marty Wilcox, representing the Budget Committee, said that while they did not dispute the importance of this they felt the cost was indirect rather than direct cost. Joe Nett said that sports were becoming less and less a part of school budgets, being called enrichment by many, and difficult for those on fixed incomes. Dominick Vittiglio spoke regarding rental of the gym to certain groups as a fundraising strategy. Ed Sherry and Ike Cross spoke against the Article. Elyse Seeley asked how cost translated into taxes and where money goes and Ron Thompson explained programs funded by the cost. Ed Sherry moved the question. It was seconded and carried by voice vote. Warrant Article #2 failed.

ARTICLE #3

Shall the Brentwood School District create a planning committee according to the provisions of RSA 194-C-2 to consider withdrawal from School Administrative Unit #16? (This is a Citizens' Petition). Ed Sherry spoke in favor of the Article saying the committee's job would be just to look at the feasibility of doing this. Jim Genter made three points in opposition to the Article. First the RSA states specific legal procedures for setting up a committee of this type. Secondly, for what we pay we get a very long list of necessary services. And lastly in the event of a pull out we would still have to provide this same long list of services and on our own we'd very likely have higher costs. After more discussion for and against this Article that included input from Jim Genter, Ed Sherry, Elyse Seeley, and Dennis Brady, an amendment was proposed to delete reference to the RSA.. The amendment failed after discussion for and against by Al Belanger, Ike Cross, Ron Thompson, and Spike. An amendment concerning makeup of the planning committee

was proposed and also failed after discussion for and against by Bill Eames, John Goodwin, Kathy Jeffrey, Dennis Brady, Nick Hardy, and Ike Cross. MSP to cut off discussion of Article #3.
Warrant Article #3 failed.

ARTICLE #4

Shall the School District accept the provisions of RSA 198:20-B providing that any School District at an annual meeting may adopt an article authorizing indefinitely, until specific rescission of such authority, the School Board to apply for, accept and expend, without further action by the School District, money from a state, federal or other governmental unit or private source which becomes available during the fiscal year? Moved by Bill Eames and seconded by Dominick Vittigleo to accept Article #4. Jim Genter explained Article #4 as stated in the RSA allowing school boards to accept monies like grants, etc. to be spent outside of normal appropriations. Ike Cross moved the article. It was seconded and passed. Warrant Article #4 passed.

Moderator Shuchman asked for any other reports and hearing none deferred to Jim Genter who thanked Ron Thompson for his service on the Board of Education. It was Ron's last day on the Board and his work in bringing the Swasey School computer system on line was recognized and gratefully applauded by all in attendance.

Regarding additional business, Dominick Vittigleo was advised to present his plan for use of the Swasey School gym for a fundraiser to the Board of Education at a regular monthly meeting.

Ike Cross moved to adjourn. It was duly seconded and carried by voice vote. 10:47 a.m.

Principal's Annual Report

Swasey Central School

This has been another year of tremendous growth and change at Swasey School. We welcomed new classroom teachers Karen Noel (1), Kate Bucklin (5), and Donna Donnell (5). Paula Rushia joined the staff as a 3 day-a-week reading specialist, and Doreen Carson was hired as our technology specialist as 60% employee. Wilhelmina Bradley joined the staff as a special education teacher. New aides in the building are Becky Becker, Lisa Crocker, and Joellen Gargaly. Custodian Fred Keith rounds out the roster of new members of Swasey School.

Swasey Central School enjoys two important sources of strength. The most positive is the most fundamental – Swasey's staff. The school's personnel have a strong commitment to student learning and are positive, enthusiastic professionals. Every person in the school feels responsible for every student's success and well being. This results in a nurturing and secure atmosphere for the students – vital for progress. The second is equally important – support for the school. Parents volunteer literally thousands of hours in the school. Our programs wouldn't be the same without this involvement. The larger town community has also supported the school well.

We continue to update and improve different areas of our curriculum. Teachers at every grade level are piloting our new SAU 16 science curriculum. We have purchased some new materials and have budgeted for the 1999-2000 year to continue to acquire materials for this new curriculum.

At Swasey School we are finishing up a revision of the Language Arts curriculum under the direction of Paula Rushia, reading specialist. We will begin an SAU look at this curriculum during next school year. One dramatic difference this year is the introduction of a new reading series, *Spotlight on Literacy*, for grades 3, 4, and 5. By purchasing these materials and receiving training with them, teachers are able to teach a consistent set of skills to children at all levels. We have budgeted for similar materials for our primary students in grades Kindergarten through grade 2 for next school year.

We continue to take a two-tier approach in the area of educational technology in order to provide our students with opportunities to acquire and reinforce needed skills. First, students have regularly scheduled whole-group instruction in the computer resource center. Second, teachers at each grade level have a specific list of skills to be taught in the classroom. Each grade list builds on the previous years' lists of skills. The school received a \$5000 grant for teacher training in technology this year.

The Volunteer Committee continues to give countless hours of support to Swasey School. Their fund raising supports enrichment activities, which will include two artists working with all students in the building this June. Equally important, volunteers come into our classrooms and library and office to work with children, bake at home for celebrations, and chaperone on field trips. They help students and staff every single day. They help make Swasey School a community, rather than an institution.

The newly formed Curriculum and Philosophy committee wrote a Swasey Central School mission and Philosophy statement during the summer of 1998. The committee received input from parents and staff in the process. The committee has helped to create an annual school profile which will be distributed to all town residents, and grade level curriculum guides. These guides will give parents a concise overview of each area of the curriculum. They will be published later this year.

The School Board has formed a Building Space Needs committee in response to the potential for student growth at Swasey School. Enrollment projections show the school's population growing by at least 6% and up to 16% in each year over the next five years. This year the school added an additional first grade because of enrollment, and next year the school is prepared to add an additional grade 2. This will result in the art and music rooms combining in order to make space for the new classroom.

As the town of Brentwood grows, Swasey Central School will grow with it. I would like to thank SAU 16 administration, the Brentwood School Board, Swasey School staff and parents, and the entire community of Brentwood for your strong support of your public school.

Respectfully submitted,

A handwritten signature in cursive script, reading "Nick Hardy", followed by a long horizontal flourish line extending to the right.

Nick Hardy, Principal

SAU 16 Report of Administration

Arthur L. Hanson, Ed.D.
Superintendent of Schools

Barbara L. Lobdell
Assistant Superintendent of Schools

Paul A. Flynn
Assistant Superintendent of Schools

The Exeter Region Cooperative Middle School opened its doors in late August for students, staff and the public. All groups appeared unanimous with their impressions of the facility and its setting – outstanding. The building was constructed with the concept that students would be arranged in small clusters, thereby offering a more intimate experience for all students. Coming from the old Exeter Junior High which was overcrowded and almost 40 years old to being housed in a brand new facility offering a magnificent auditorium; a beautifully appointed Media Center; a gymnasium capable of accommodating several physical education classes/athletic teams simultaneously; and classrooms that are equipped for the 21st Century has been a wonderful experience for staff and students alike.

The High School Facilities Committee met during the entire 1997 – 1998 school year and through November of this school year. The Exeter Region Cooperative School Board decided, after much deliberation, to postpone taking a plan for renovations and/or new structures to the voters of SAU #16 in March of 1999. The board determined that further study is needed and, at this time, hopes to place a plan before the voters in March of 2000.

The Lincoln Street School Renovations Committee has been meeting all fall to determine what to bring to the Exeter voters for the second and last phase of the school renovations. At this time, it looks as if the project will cost approximately 1.9 million dollars. The second phase will address Americans with Disabilities Act (ADA) issues, windows, site work, casework, interior painting, plumbing, heating, new floor tile, stair treads, roofing concerns, and other maintenance issues that the school has needed to correct for several years.

The student enrollment of most of the SAU #16 schools continue to exceed projections and many of the schools have record enrollments. The Cooperative Middle School and Exeter High School currently have 1274 and 1371 students respectively. The Swasey Elementary School in Brentwood has 243 students; Newfields Elementary has 137 students; East Kingston Elementary has 155 students; Stratham Memorial has 632 students; and Kensington Elementary with 149 students. These schools are experiencing unprecedented growth. Brentwood, Kensington, Newfields, and East Kingston are

placing plans before the voters for building additions or are in the process of studying space needs. The Exeter Elementary Schools are demonstrating a declining enrollment with their student populations

There is a sense of collaboration with the individual school districts. The hiring of a SAU wide curriculum coordinator this year is an important step in this direction. It is paramount that all students in the SAU have a "common" curriculum, and a variety of assessment measures are being established to ensure that national, state and local standards are not only being taught, but learned.

Additionally, representatives from the SAU Schools, board members, police and fire personnel and citizens from the six communities gathered during the summer to be trained further in "Crisis Management and Emergency Response". The training was provided by the New Hampshire Fire Academy and the Exeter Police and Fire Departments. A follow-up session was held in November with future meetings scheduled for the spring of 1999. It is the group's intent to develop Crisis Management and Emergency Response Plans for each of the SAU Schools.

Likewise, the entire Administrative Team of the School District is undergoing extensive training regarding staff supervision and evaluation. Teachers and other interested parties will be invited to join this training at the appropriate time.

The SAU continues to make efforts to prepare our students technologically as they enter the 21st Century. This is an immense endeavor and one that generates lots of dialogue and conversation. The voters of the Exeter Region Cooperative School District approved the first year of a three-year plan to equip the students and staff of the schools with technologies that will enhance staff instruction and student learning. Technology coordinators throughout the SAU continue to meet on a bi-monthly basis to offer assistance and expertise to ensure consistency with all technology initiatives in all SAU Schools.

The funding of quality education is an expensive proposition for all citizens of New Hampshire. However, there is arguably no legacy that communities can offer that is more important to it's future than a quality education for all of the children. The SAU Schools need community involvement and support in order to meet the challenges of the next century. Please stay or get involved with your schools today.

In May of 1951 the Clarence Fralic family moved to Brentwood from Massachusetts. Two of their three sons, Jim and Clarence ("Brud"), grew up to be very active members of the Brentwood Volunteer fire Department and are honored here.

In 1960 Jim graduated from Exeter High School, followed two years later by his younger brother Brud.

Both boys gave countless hours repairing, replacing parts and servicing our antiquated trucks. At that time budgets were tight, new equipment hard to come by and new trucks unheard of.

In 1966 Jim became a Forest Fire Warden and in 1968 was appointed Fire Chief. He held both positions until his retirement in 1982.

Brud was Deputy Chief and a Fire Ward in 1975, holding those positions until 1981. He was also a Forest Fire Warden from 1979 to 1981.

Both Jim and Brud held full time jobs as well, Jim as a heavy equipment operator and Brud as a Pilot Boat Captain in Boston Harbor for 15 years and for 5 additional years in Portland, Maine.

Whenever Jim or Brud could get a few days off, they would head for Nova Scotia, their other home, to visit relatives and friends. Both had a love of the sea, and each owned his own lobster boat.

Brud was a great fan of snowmobiling in the winter, too. Tragically, a heart attack claimed his life last July, and he is sorely missed.

Too few people know of the unstinting time and effort that these men put into their "fire careers" willingly and sincerely. Brentwood is proud to salute these two men and deeply grateful for a job well done.
